

My Reflection from Seminar III is as follows:

1. **Sources to find Industrial Reports** – In the Seminar, Kate walked us through the websites where we can find Industrial reports which will help me in my Escan 2 assignment in Bus 100 class this semester.
2. **References** - I learned how to write references properly. This knowledge will help me get more marks with proper references in future reports I write.
3. **Citation** – Kate taught us how to do in-text citation so we don't commit academic misconduct by stealing someone else information.
